

Want to take your camp experience to the next level?

Achieve your academic goals and complete internship requirements, while contributing to a meaningful mission!

WHO YOU ARE:

- You are a student pursuing a future career in Physical Therapy, Occupational Therapy, Physician Assistant studies, Special Education, Recreational Therapy, Medical School, or a related field.
- You exhibit maturity, responsibility, integrity, and adaptability.
- You enjoy working with children and young adults in an outdoor setting.

WHAT YOU WILL DO:

- Assist program staff with planning, implementation and evaluation of activities.
- Help campers with personal growth and daily living skills.
- Work with full-time staff to curate an internship experience that helps you succeed in your career path.

Housing and Stipend available!

2000 Aldersgate Rd. Little Rock, AR 72205

**Breaking Barriers.
Building Bridges.**

WHO WE ARE

We provide barrier-free experiences in a beautiful camp setting. Our services are an essential part of the continuum of care for the quality of life of individuals with special need and their families and caregivers.

MISSION

To provide life-changing experiences for individuals with special needs.

VISION

Inspiring a barrier-free future.

VALUES

Love & Acceptance • Inclusion
Collaboration • Excellence
Innovation

CORE PROGRAMS

SUMMER CAMPS

Week-long residential camp experiences for individuals with special needs and medical conditions. Traditional camp activities are offered in an accessible environment.

WEEKEND CAMPS

Offered during the fall and spring. These abbreviated sessions are packed full of indoor and outdoor activities.

SPECIALTY CAMPS

Camp Aldersgate collaborates with a variety of health and service organizations to offer Specialty Camps, which provide the opportunity to develop a program tailored to the objectives of the agency.

WHO WE SERVE

We serve children ages 6-18 and young adults ages 19-35 with a variety of special needs and medical conditions including spinal cord disorders, Muscular Dystrophy, diabetes, oncology, blood disorders, various cardiac conditions, and intellectual/developmental disabilities.
